Test Summary Report

Contents

1. Report Description

This document explains the various activities performed as part of Testing of 'Play Sample Application - Computer Database'

Project Name	Mollo Test Project			
Name of Product (application URL)	Play Sample Application - Computers Database (https://computer-database.herokuapp.com/computers)			
Product Description	Computer Database Application			
Project Description	Mission of Project Conduct testing to verify the functionality of the application features ● Improvement for a better experience ● Stable features			
	Project Type	Testing/verification		
Project Duration	Start Date	21/02/2022	End Date	21/02/2022

2. Application Overview

Play Sample Application - Computers Database software is designed for the storage and retrieval of over five hundreds of computer types. It allows the addition and updating of computer records and deleting off records.

3. Testing Objectives

A functional test was carried out on this application to verify the functionality of the application features.

4. Testing Scope

a) In Scope

Functionality Testing for the following modules is in the scope of Testing the features.

i. Add new computer feature

ii. Update computer record feature

iii. Delete computer record feature

iv. Filter/Search Feature

v. Navigation feature

● Next

● Previous

b) Out of Scope

Performance testing was not done for this application

5. *Metrics*

a) Number of test cases planned vs executed

Features	TestCase Planned	TestCases Executed	TestCases Passed	TestCases Failed
Add new computer record	5	5	4	1
Update computer record	1	1	1	0
Delete computer record	1	1	1	0
Filter/Search	5	5	5	0
Page Navigation	5	5	5	0
Total:	**17 (100%)**	**17 (100%)**	**16 (94.1%)**	**1 (5.9%)**

b) Number of Test cases Passed vs Test Failed
Pass   94.1%
Failed   5.9%

6. *Testing Environment and Tools*

Application Name	Play Sample Application - Computers Database
Application URL	https://computer-database.herokuapp.com/computers
Platform	Hp Laptop
Platform Version	Windows 10 PC
Browser	Chrome '98
TestCase documentation	Spreadsheet
TestCase Report	Manual - Google docs Automation - Allure report
Automation framework	Selenium webdrive - single page approach
Programming language	Java
